

Risk Assessment Template for Opening Church Buildings to the Public

Version Control

Issue Date	Version Number	Issued by
16 th July 2021	10	The House of Bishops COVID-19 Recovery Group

This update has been reviewed to reflect step 4 of the [roadmap to ease restrictions](#) issued by the UK government and is intended for use from 19th July onwards. As step 4 sees the easing of all legal restrictions it is recommended that risk assessments currently in place are re-run to ensure they fit the new circumstances. The Church of England's [guidance on step 4](#) may be a helpful reference point.

It is recommended that you carry out a separate risk assessment for each activity type e.g. public worship, use by community groups, concerts etc. and that these are regularly reviewed with reference to local Covid infection rates and other relevant circumstances. You may decide to have different mitigations or safety measures in place for different events. Where activities run simultaneously or back-to-back, each iteration of the risk assessment should address the shared or consequential risk.

Risk assessment templates for outdoor worship and for contractors and construction workers are also available on the [Church of England Coronavirus page](#).

Carrying out a risk assessment

1. Agree what activities you are planning for:
 - Private prayer
 - Public worship with or without congregational singing
 - Funerals, weddings, baptisms, ordinations
 - Livestreaming or recording services
 - A choir or music group singing indoors as part of a public, livestreamed or recorded service
 - Formal childcare or where part of a school
 - Essential voluntary and public services
 - Use as a vaccination or testing centre
 - Community and support groups
 - Provision of youth services
 - Opening shops/cafes
 - Opening for visitors/tourists/educational visits as a heritage attraction
 - Opening for concerts, plays etc
2. Consider the hazards:
 - Transmission of COVID-19
 - Hazards arising from using the church in a different way to usual
 - Shared or consequential risks of activities running simultaneously or back-to-back (eg crossover of people at entry/exit points)

Read the guidance and think about how it relates specifically to your church. What constraints are there? Consider how people will arrive at the church, including if they will need to wait or queue outside; how people will enter and leave the church; circulation inside: from the entrance to the worship space and out again; circulation within the worship space; also access to other areas including the toilet(s).

3. Consider who might be harmed and how. Read the guidance and think about how the activities you are planning will affect different groups of people. The risks are not different for larger churches as long as they are properly managed, but having any significant numbers of people coming through your building makes the possible impact – in particular someone with COVID-19 coming into contact with others – higher than in smaller churches with fewer people. Consider your particular circumstances and adapt the checklist below as appropriate. Gathered congregations and major services may attract people from far afield, which is likely to add to the risk profile. Consider whether you need to consult your wider membership and users.

4. Using the risk assessment checklist below as a template:

- add in mitigations for any risks that are particular to your circumstances that may not be on the list;
- record what you need to do for each activity to go ahead safely;
- consider any equipment you need and any temporary changes you might need to make to the church;
- check back against your list of activities to confirm which ones can go ahead and when.

Risk assessment template

Church: St Paul's Warwick	Assessor's name: Rev J Hearn/H Phillips, Churchwarden	Date completed: August 2021	Review date: TBA
Event or service this assessment relates to:		Use of Church Hall	

Risk	Controls to consider (delete or detail as appropriate to your location and event)	Additional information	Action by whom?
Aerosol or droplet transmission of Covid-19	Increase ventilation in your building: natural ventilation by opening doors, windows and vents or mechanical ventilation if appropriate/necessary.	Keep outside door and lobby door open Do not prop open fire doors.	Event leader
	Use outdoor spaces if appropriate and available.	Go outside for activities if appropriate.	Event leader
	Request or consider requesting people to wear a face covering, unless exempt, when inside your building. This may particularly apply to activities that increase risk of aerosol spread.	Advise wearing of face masks is preferable while moving around but optional whilst seated. Face masks available.	Event leader
	Put in place measures to reduce contact between people e.g. retaining social distancing	Chairs to be socially distanced. Ensure any signage is visible. Use of kitchen - wearing masks optional; plastic gloves and all cleaning materials available. Tables socially	Event leader/Church

Risk	Controls to consider (delete or detail as appropriate to your location and event)	Additional information	Action by whom?
		distanced. Hand sanitiser available.	
Surface transmission of Covid-19	Provide adequate hand cleansing stations. Provide hand sanitiser for the occasions when people can't wash their hands.	Hand sanitiser available in hall and in lobby.	Church/Event leader
	Identify where you can reduce the contact of people with surfaces, e.g. by leaving open doors that are not fire doors, using electronic documents rather than paperwork.		Event leader
	Good hygiene and cleaning of the building.	All surfaces, including tables, to be cleaned before & after event. Building cleaned regularly twice a week.	Event leader Church
	If providing single-use sheets, ask people to sanitise hands before picking one up, and request that people take these home with them.	Single use sheets to be taken home.	Event leader
	Where there are toilet facilities, ensure there is hand cleansing	Hand soap & driers in all toilets.	Church
	Ensure all waste receptacles have disposable liners (e.g. polythene bin bags) to reduce the risk to those responsible for removing them.	Waste bins with liners are emptied regularly.	Church
Visitors are unclear on requirements for visiting the building for other purposes, or anxious about attending.	Display an NHS Track and Trace QR code, with an alternative option for those who cannot use that system. Encourage use of one or other of these options.	QR Code displayed. Contact details to be taken of those who cannot use system.	Event leader
	Consider specific advice for those who may struggle with continuing restrictions, such as those who are deaf or hard of hearing, or visually impaired.		Event leader

Risk	Controls to consider (delete or detail as appropriate to your location and event)	Additional information	Action by whom?
	Provide welcoming notices that outline safety measures.	Notices displayed prominently	Event leader
Cleaning the church after known exposure to someone with Coronavirus symptoms	If possible close the church building for 48 hours with no access permitted.		JH/CW
	If 48-hour closure is not possible then follow Public Health England guidance on cleaning in non-healthcare settings.	Public Health England guidance available here.	JH/CW
	If the building has been quarantined for 48 hours, then carry out cleaning as per the normal advice on cleaning.	Advice on cleaning church buildings can be found here.	TY
